SUMMARY

Software engineer who loves solving hard problems with AI. Genuinely excited about software, and comfortable going from explaining technical systems to clients to architecting agentic systems in the same day.

TECHNICAL SKILLS

TypeScript, Node, Python, AWS, Cloudflare, React, SQL, LLM tool-use & evals

PROFESSIONAL EXPERIENCE

SIMPLARITY AI

Modesto, CA

Software engineer (contract)

June 2025 - Present

- Built and maintained an AI powered application that analyzes 1000s of instagram reels allowing AI to write grounded content that actually gets views. AI generated scripts consistently performed well. Some outputs reached 1 million views in under 24 hours.
- Worked directly with clients to iterate fast, often implementing features and fixes same-day.

Visions to Visuals LLC

Davis, CA

Co-Founder

Feb 2024 - Present

- Personally developed and deployed 6 client websites, including an e-commerce store and a learning management platform.

Digital NEST

Modesto, CA

Web Development Intern

Nov 2023 - June 2025

- Led development of a web scraping tool for aggregating 1000s of job listings.
- Helped lead development of an ML powered museum exhibit that turns drawings into animated gifs.

Modesto Academy Of Music and Design

Salida, CA

Robotics Instructor

Aug 2019 - May 2024

- Coached a middle school VEX EDR competitive robotics team, ranked 1st in its league.

PROJECTS

Evergreen: Autonomous Devops Agent in Production

Modesto, CA

Developer

Feb 2026 - June 2026

- Created an automated AI system that monitors production logs, uptime, and dependency vulnerabilities. It automatically files PRs and alerts maintainers on finding issues. In two weeks: identified 36 bugs, filed 25 PRs, 19 of which merged without changes.

Game with Infinite AI-Powered Content

Ripon, CA

Developer

April 2026 - Present

- Built a system that uses AI agents and image generation models to generate new game worlds and self balance via automated playtesting in a loop.

And many, many more. My portfolio provides an easy way to filter projects by specific relevant skills!

EDUCATION

Modesto Junior College

Modesto, CA

A.S. in Computer Science

August 2021 – May 2024

- ExtraCurriculars:** President of the MJC computer science club, started a company with my college friends.
